

# Index to Volume 21, 1984

- Acid-base chemistry, reliability of Henderson-Hasselbalch equation 26: correspondence 224: reply 334
- 'Acute phase' proteins, serum ferritin, changes following major surgery 290
- Agarose gel, immunofixation and immunosubtraction, aid in typing of monoclonal gammopathies 467
- ALBERTI KGMM *see* ROWAN RM *et al.* and WALFORD S *et al.*
- Albumin  
carbodiimide-assisted coupling to agarose: technical note 57  
plasma determination  
by Beckman Astra 8 (BCG) and Du Pont ACA II (BCP) autoanalysers, effect of heparin 387  
homogeneous fluoroimmunoassay using Lucifer yellow VS 59
- Alcohol intake and liver function tests, relationship between, Alcoholism Unit 261
- Alkaline phosphatase isoenzyme abnormality, new 352
- Alkaline ribonuclease, plasma, as indicator of protein nutritional status in infancy, critical assessment 357
- ALLEN MC *see* MOORE RA *et al.*
- ALSTON WC *see* CUSICK PE *et al.*
- Aluminium inhibition of enzymatic O-methylation, reversal by desferrioxamine: correspondence 223
- Amerlex, free T<sub>4</sub> kit: technical note 444
- Ammonia  
Checker: correspondence 69  
determination by modified Berthelot method using an AutoAnalyzer 378
- Amniotic fluid  
lung function tests, evaluation: correspondence 334  
plasma and saliva, rapid assay for 17 $\alpha$ OH-progesterone using magnetisable solid-phase antiserum 417
- ANDERSON D, PENNOCK CA, HENDERSON MJ and HOLTON JB: The ammonia checker: correspondence 69  
*see* BRIGGS CJ *et al.*
- Angiotensin-converting enzyme, human serum, kinetic fluorimetric assay 372
- Anticonvulsant concentrations, distribution, computer-generated comments 184
- Antigen-binding, two-site immunoradiometric assay, serum ferritin, hook effect 393
- Apolipoproteins, immunochemical determination, chronic haemodialysis 301
- ARCHER T *see* RUBIN C *et al.*
- Arginine, measurement in serum, simple method 515
- ARIATTI M *see* MOONSWAMI E *et al.*
- ASHBY JP, DEACON AC and RINSLER MG: Glycosylated haemoglobin in diabetic pregnancy: correspondence 224
- Aspirin metabolites, causing misinterpretation of paracetamol results 527
- Atomic absorption spectroscopy and flow-injection analysis, calcium and magnesium 51
- ATTWOOD EC *see* WHITE WA and ATTWOOD EC
- Autoanalysers, Beckman Astra 8 (BCG) and Du Pont ACA II (BCP), determination of plasma albumin, effect of heparin 387
- 2,2'-Azino-di(3-ethylbenzthiazoline-6-sulphonate) (ABTS), chromogen in enzymatic assay of serum uric acid 504
- BADCOCK NA, PENNA AC, EVERETT DS and SANSOM LN: Aspirin metabolites causing misinterpretation of paracetamol results 527
- BAILEY MP, ROCKS BF and RILEY C: Homogeneous fluoroimmunoassay using Lucifer yellow VS: determination of albumin plasma 59
- BALDWIN D *see* MOORE RA *et al.*
- BALLANTYNE FC: Role of the clinical biochemistry laboratory in the assessment of dyslipoproteinaemias: review article 166
- BANDO K, SHIMOTSUJI T, TOYOSHIMA H, HAYASHI C and MIYAI K: Fluorometric assay of human serum carnosinase activity in normal children, adults and patients with myopathy 510
- BARNARD GJ *see* BROCKELBANK JL *et al.*
- BATSTONE F *see* COOMBES EJ *et al.*
- BEGENT RHJ: The value of carcinoembryonic antigen measurement in clinical practice: review article 231
- BENNETT MJ  
and CARPENTER KH: Experience with a simple high-performance liquid chromatography method for the analysis of purine and pyrimidine nucleosides and bases in biological fluids 131
- GREEN A, POLLITT RJ and WORTHY E: The routine investigation of urinary organic acids in selected paediatric patients: results over a 2½ year period 45
- BENNIE JG *see* HUNTER WM *et al.*
- BERG JD, PANDOV HI and SAMMONS HG: Serum total bile acid levels in patients receiving rifampicin and isoniazid 218
- BERGER HM *see* SCOTT PH *et al.*
- BERKES I *see* MAJKIC-SINGH N *et al.*
- Berthelot method, modified, using an AutoAnalyzer, ammonia determination 378
- Bile acids  
glycine/taurine conjugates, analysis by high-performance thin-layer chromatography and densitometry 137  
serum levels and rifampicin and isoniazid 218
- BISHOP N *see* NEWILL A *et al.*
- BJURSTRÖM CH *see* HARDY MJ and BJURSTRÖM CH
- Blood  
glucose reflectance meters featuring automatic external calibration, two new methods 116

pressure and chemistry, some correlations and apparent correlations 257  
whole, red blood cells, plasma and dried blood, glycosylated protein, colorimetric measurement 477

## BOOK REVIEWS:

- ADDISON GM, HARKNESS RA and POLLITT RJ editors: *Trace metals and inherited metabolic disease* 1983 533
- BEELER MF and CATROU PG: *Interpretations in clinical chemistry—a textbook approach to chemical pathology* 2nd edn 1983 531
- BERGMEYER HU editor: *Methods of enzymatic analysis* Vol. I Fundamentals 1983 533; Vol. II, Samples, reagents, assessment of results 1983 227; Vol. III, Enzymes 1: Oxidoreductases, transferases 1983 228; Vol. IV Enzymes 2; esterases, glycosidases, lyases, ligases 1984 534
- BORN GVR, FARAH A, HERKEN H and WELSH AD editors: *Tissue growth factors* volume 57 Handbook of experimental pharmacology 1981 531
- BROWN SS, CALAM DH and GLOAG EA: *Clinical laboratory science in Europe: the roles of industry, the professions and health agencies* 151
- BUTTNER J: *History of clinical chemistry* 1983 151
- CAMPBELL AK: *Intracellular calcium, its universal role as regulator* 1983 337
- COHEN MP and FOA PP editors: *Special topics in endocrinology and metabolism* vol. 4 1983 71
- COHN RM and ROTH KS: *Metabolic disease. A guide to early recognition* 1983 337
- DE KRETZER DM, BURGER HG and HUDSON B editors: *The pituitary and testis. Clinical and experimental studies*. Vol. 25. Monographs on endocrinology, series 1983 150
- ELKELES RS and TAVILL AS editors: *Biochemical aspects of human disease* 1983 71
- GRANT JK and BEASTALL GH: *Clinical biochemistry of steroid hormones—methods and applications* 1983 337
- HADDAD LM and WINCHESTER JF editors: *Clinical management of poisoning and drug overdose* 1983 226
- HALL CA: *The cobalamins*. Vol. 10, Methods in haematology, series 1983 152
- HARVEY AL: *The pharmacology of nerve and muscle in tissue culture* 1984 532
- JEFFCOATE SL editor: *Current topics in reproductive endocrinology*. Vol. 1, Androgens and Anti-androgen therapy 1982. Vol. III, Ovulation: methods for its prediction and detection 1983 337
- KABRA P and MARTON LJ editors: *Liquid chromatography in clinical analysis*. Biological methods, series 1981 151
- KALDOR G: *Clinical enzymology*. Vol. 3, Methods in laboratory medicine, series 1983 338
- KRUK ZL and PYCOCK CJ: *Neurotransmitters and drugs* 2nd edn 1983 150
- LEFEBVRE P: *Glucagon*. Volumes 1 and 2, Handbook of experimental pharmacology, vol. 66, parts 1 and 2 1983 226
- LEFER AM and SCHUMER W editors: *Molecular and cellular aspects of shock and trauma*. Vol. 3, Progress in clinical and biological research, series 1983 72
- MONTAGUE W: *Diabetes and the endocrine pancreas: a biochemical approach* 1983 228
- OGSTON D: *The physiology of hemostasis* 1983 150
- O'SULLIVAN DG: *Pocket examiner in biochemistry* 1983 72
- PATERSON CR: *Essentials of human biochemistry* 1983 73
- PRASAD AS, DREOSTI IE and HETZEL BS editors: *Clinical applications of recent advances in zinc metabolism*. Vol. 7, Current topics in nutrition and disease, series 1983 71
- PROUDFOOT A: *Diagnosis and management of acute poisoning* 1982 226
- RAPHAEL SS: *Lynch's medical laboratory technology* 4th edn 1983 531
- READ GF, RIAD-FAHMY D, WALKER RF and GRIFFITHS K editors: *Immunoassay of steroids in saliva* 1984 532
